

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

PREVALENCE OF DISEASE.

No health department, State or local, can effectively prevent or control disease without knowledge of when, where, and under what conditions cases are occurring.

UNITED STATES.

CURRENT STATE SUMMARIES.

Telegraphic Reports for Week Ended April 1, 1922.

These reports are preliminary, and the figures are subject to change when later returns are received by the State health officers.

SUMMARY OF CASES REPORTED MONTHLY BY STATES.

The following summary of monthly State reports is published weekly and covers only those States from which reports are received during the current week:

State.	Cerebrospinal meningitis.	Diphtheria.	Influenza.	Malaria.	Measles.	Pelagra.	Polomyelitis.	Scarlet fever.	Smallpox.	Typhoid fever.
February, 1922.										
California.....	21	809	19,528	11	83		2	628	376	32
Delaware.....		10	16	1	27			381		5
Kansas.....	5	311	2,556		21		1	481	193	7
Ohio.....	5	906	1,364		1,246		5	1,489	377	63
Oregon.....	1	82	1,351		13			68	212	3
Pennsylvania.....	17	1,379		1	1,723	1	9	1,947	27	77
Virginia.....	6	221	10,038	108	401	11	3	193	120	19
Wyoming.....		15	952		11			16	37	13

CITY REPORTS FOR WEEK ENDED MARCH 18, 1922.

ANTHRAX.

City.	Cases.	Deaths.
California:		
Los Angeles.....		1
Massachusetts:		
Boston.....	1	
New Jersey:		
Hoboken.....	1	

CEREBROSPINAL MENINGITIS.

The column headed "Median for previous years" gives the median number of cases reported during the corresponding weeks of the years 1915 to 1921, inclusive. In instances in which data for the full seven years are incomplete, the median is that for the number of years for which information is available.

POLIOMYELITIS (INFANTILE PARALYSIS).

The column headed "Median for previous years" gives the median number of cases reported during the corresponding weeks of the years 1915 to 1921, inclusive. In instances in which data for the full seven years are incomplete, the median is that for the number of years for which information is available.
